

WHAT IS COPERNIC?

Copernic is a business transformation project specifically designed to help improve the Groups performance. The aim is to join the rest of the Group and use a common business system that will simplify our commercial and procurement activities by optimising and harmonising our processes, management methods and tools across the business.

Copernic is made up of several tools, in the UK we will be implementing the following tools:

COUPA – Sourcing tools for placing orders in line with the Groups purchasing policy

Carl Source – Stock Management (already being used in Rail Services)

SOC – Job Monitoring – Actual costs and forecasts

LISA – Job Reporting and Time sheets (interfaced with Core HR)

J@DE – (Pronounced Jade) to streamline the accounting and invoicing process (will interface with Core HR)

All tools are available from all devices with an internet connection to enable easier accessibility and to save time and improve efficiency. We will explain more about each tool in the coming weeks.

INTRODUCTION VIDEO

Click on the image above to watch the introduction video to learn more.

Please note that not all tools detailed will be implemented within the UK.

PROJECT UPDATE :

Since January 2021, a team of project leads have been meeting weekly to work on different parts of the system.

A series of workshops, development sessions and planning meetings have been held in conjunction with group divisions to discuss our current systems, understand the gap analysis and the impact the new systems will have on our day to day business.

LAUNCH DATE:
JANUARY 2022

COLAS RAIL

WHO IS IT FOR?

Everyone in the business who plays a role in ordering products or services on behalf of the company, manages resources, deals with time sheets or works in the following departments:

- Operations
- Procurement
- Plant
- Commercial
- HR
- Finance

A series of on-boarding sessions for managers and users will be arranged. Training will be a blend of e-learning and either face to face or virtual training sessions depended on your role.

Dates to be confirmed in due course.
