Thanks To You...

We care about what is important to you and share it with you.

Here are some highlights from the Dialogue Survey in 2022:

Based on your feedback we have adjusted our business objectives to increase visibility and the number of conversation / interactions which are taking place across the business.

We have held bespoke sessions to address the lower scoring areas.

We are keen to hear of issues in real time, if you have any concerns or suggestions your Manager is always available for a one to one.

The Dialogue Survey returns on 19th September 2023.

Every voice matters!

Thanks To You...

We care about what is important to you and share it with you.

Here are some highlights from the Dialogue Survey in 2022:

Based on your feedback we have undertaken a review of the team structure and added resource into the design, engineering and construction teams to address workload and balance requirements on people's time.

In addition we have agreed a programme of wellbeing sessions to be delivered through 2023 with 7 Futures, which will be delivered at our offices in short sessions designed to not impact on people's daily work requirements.

As part of our ongoing office relocation, we moved into our new Swindon office in April 2023.

We are keen to hear of issues in real time, if you have any concerns or suggestions your Manager is always available for a one to one.

The Dialogue Survey returns 19th September 2023.
